## Effects of activities

Through our activities...

Many residents knew us as RA!

→ More residents than before can rely on us!

(以前より多くの寮生が私たちを頼るようになりました☆)

To pursue our goal, we will do... (私たちのゴールのために...)

1. Maintain the status quo

We will be mindful of dorm residents who do not follow the rules, and ensure that any ambiguous rules are clarified so that dormitory will have been great home. (適度な声掛け、寮ルールの明確化)

2. Fulfilling residents' wishes

We are actively communicating with dorm residents to create an environment where their opinions and ideas can be easily incorporated into the dormitory. We believe it is necessary to make a environment which dorm student's thought will be add to dormitory. (寮生との積極的コミュニケーション、寮生の意見や考えが寮に反映されやすい環境を作り)

3. Taking on new challenges

We conduct regular surveys and plan events that we have never done.

Additionally, we are exploring the development of new services.

(アンケートを実施、今までにないイベントの企画、新しいサービスの考案)
